Adapter Construction

The adapter is made up of 2 sub-assemblies. They assemble via connectors making the adapter modular. This way the sub-assemblies can be replaced easily.

The following chart shows the various socket and board part numbers of the adapters described by this datasheet.

Adapter	Socket	Circuit Board
PA54-44	44-306	PA51-PD-J
PA54-44Z	44-400	PA51-PDZ-J

When disassembling the adapter take care not to bend the pins. When reassembling the adapter note the pin 1 indicators to align the parts correctly.
